TRISQUADATHON 2.0

Final Round – Participants Guidelines

Dear Participants,

Congratulations on reaching the final round of **TRISQUADATHON 2026!** Please follow the guidelines below to ensure a smooth and successful event.

1. Check-in and Registration

- **Reporting Time:** 8:30 AM
- All participants must report to the registration desk on time.
- Wearing and displaying your college ID card is mandatory for all participants.
- Team members must be present for registration and verification.

2. Round 1 – Jury Evaluation

Phase - 1 :

- Each team must complete at least **85% of their project development** and demonstrate the working project to the jury members for evaluation.
- Teams must clearly explain the problem statement, proposed solution, working model, and key features of their project.
- Teams must explain the technology stack, tools used, and implementation process.
- All team members must be familiar with the project and be prepared to answer questions from the jury.
- Projects will be evaluated based on innovation, uniqueness, technical implementation, functionality, real-world impact, and feasibility.
- Based on the jury's evaluation, teams must identify and implement the suggested changes and improvements before the next phase.

Phase - 2 :

- Teams must implement the changes and improvements suggested by the jury during Phase 1.
- Each team must present the updated project and demonstrate the improvements made based on the jury's feedback.
- Teams must explain the modifications, additional features, and technical improvements implemented after the initial evaluation.
- The jury will re-evaluate the project based on its updated functionality, implementation quality, innovation, feasibility, and overall performance.
- All team members must be prepared to explain the updated project and answer questions from the jury.
- The jury's final evaluation will determine the team's performance in Round 1.

3. Round 2 – PPT Presentation

- Only shortlisted teams from Round 1 will proceed to Round 2.

- Each team must prepare a PowerPoint presentation containing 11 **slides**.
- The presentation should cover:
    1. Project Title
    2. Objectives
    3. Proposed Solution
    4. Technical Approach
    5. System Architecture
    6. Feasibility and Viability
    7. Impact and Benefits
    8. Screen Shots of Dashboard
    9. Conclusion
    10. Future Scope
    11. References
- Keep the presentation clear, concise, and professional.
- Follow the time limit announced by the organizers.
- The jury may ask questions after the presentation.

4. General Rules

- Maintain discipline and follow the instructions of the organizers and jury members.
- Bring your laptop, charger, and other required materials.
- All participants must carry their college ID cards throughout the event.
- Present original work and acknowledge external datasets, libraries, APIs, or resources used.
- The jury's decision will be final.

5. Valedictory and Prize Distribution

- All participants must assemble at the designated venue for the valedictory session.
- The session will conclude with the valedictory address and prize announcement.
- Winners will be selected based on the jury's evaluation.
- Participants are requested to remain until the event concludes.

Best wishes to all finalist teams!
